

Request to take a Required Third-Year Clerkship at a Rural Location

Students have the option of completing a third-year required clinical clerkship(s) at an established rural site in Kansas. Rural sites are carefully chosen to fulfill the clerkship requirements and, as such, there are a limited number of sites available. This form must be submitted to the Office of Rural Medical Education at least eight weeks prior to the start date of the clerkship to maximize the likelihood of placement in one of your chosen sites. Please remember that site selection is always dependent on availability.
